Digital 
Technology

If your child was born after 1995 you are raising a 'digital native'; they are the first generation to grow up exclusively in the digital age. The impact of digital technology is far-reaching; creating both challenges and opportunities.

What impact is it all having them? How can parents respond? How can we help them build healthy relationships, deal with social media and learn to avoid explicit content? All these questions and more will be answered in this engaging and interactive seminar.

"Thank you for your solid consistent advice. We like the way you say it as it really is."

— PARENT, HURSTMERE SCHOOL

"Really great webinar! Great information and valuable tools to help me get this through to my son"
